An SBAS Geometry Analysis Tool

We are developing the SBAS Geometry Analysis Tool which is an comprehensive toolset that enables SBAS engineers, researchers and operators to carry out analyses of orbit and ionospheric geometries between SBAS ground stations and constellation of satellites.

UX | UI | Android | Dentistry

Innovative software tailored to the needs of dentists

Software ensures effortless navigation, controls adjustment of handpieces, electro-pneumatic brakes and the unit's parameters such as chair's motion or position of light.

AR app - a sales tool for dental chairs

Using AR technology, dentists can view a 3D model of the chair in its life-size and reduced-size dimensions in their office and choose the right model.

Digital assistant for service technicians

A simple application helps technicians to file a complaint to manufacturers notified about complaints, increasing the efficiency of the entire process and minimizing errors.

The logo for EcoCapsule, featuring the word "ECOCAPSULE" in white uppercase letters inside a blue rounded rectangle with a small blue tab on the top right.

ECOCAPSULE

UI | iOS | Android | AR

AR app for a self-sustainable microhome

The app enables a tour inside
and to showcase the ecocapsule
at a specific place in actual size.

UX | UI | Porfolio managment system | Integration

Porfolio management system

The company was using too many systems to manage operations across many departments until we developed one system for managing their whole product range. Moreover, our solution became their main source of data.

The screenshot displays the Ferrero portfolio management system interface. The top navigation bar includes the Ferrero logo and a user profile 'DS Dwight Admin'. The left sidebar contains menu items: PORTFOLIO, P&L CARDS (with a notification badge), IMPORTS, and EXPORTS. The main content area shows product details for 'K. Chocolate T8x10x4' (ID: #77123456, CY20-21, XGZ1107400, Kinder Chocolate 100G). Below the product name are tabs for Overview, IDs & Names, Specification, Logistics, Timing (selected), BOM Components (6), P&L Card (None), and Media files (3). The 'Timing & periods overview' section contains a table of key dates and a Gantt chart.

Interactive car configurator

An innovative product configurator that helps customers to customize a car to their preferences.

The screenshot shows the Maserati Levante GTS configurator interface. At the top right is the Maserati logo. Below it is a navigation bar with five steps: 1. Models (highlighted with a blue border), 2. Engine, 3. Exterior, 4. Interior, and 5. Summary. A back arrow and the word 'Model' are on the left. The main title 'Levante GTS' is prominently displayed. To the left of the car image is a list of specifications:

Max power	430 HP
Max speed	264 km/h
Acceleration	5.2 sec
Engine layout	V6
Traction	AWD
Max torque	580 Nm
Price	79.999 €

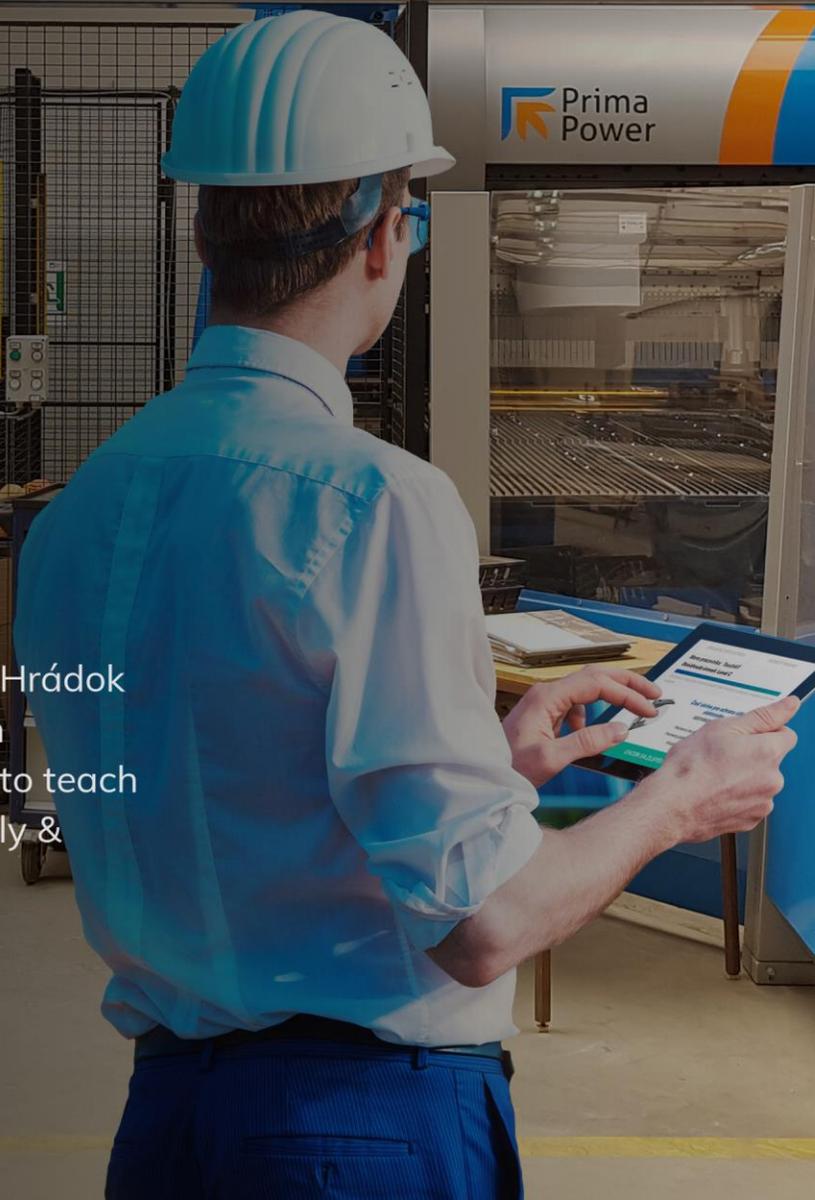

The car image shows a silver Levante GTS on a white circular platform. Below the image is a button that says 'Continue with Levante S →'. At the bottom, there is a carousel of three car models: Levante S, Levante GTS (highlighted), and Levante TROFEO, with left and right navigation arrows.

iOS | AR | Education

Employee onboarding tool

The innovate app for TESLA Liptovský Hrádok uses gamification to simplify education onboarding for employees. The goal is to teach people to work with the machine quickly & optimize the whole process.

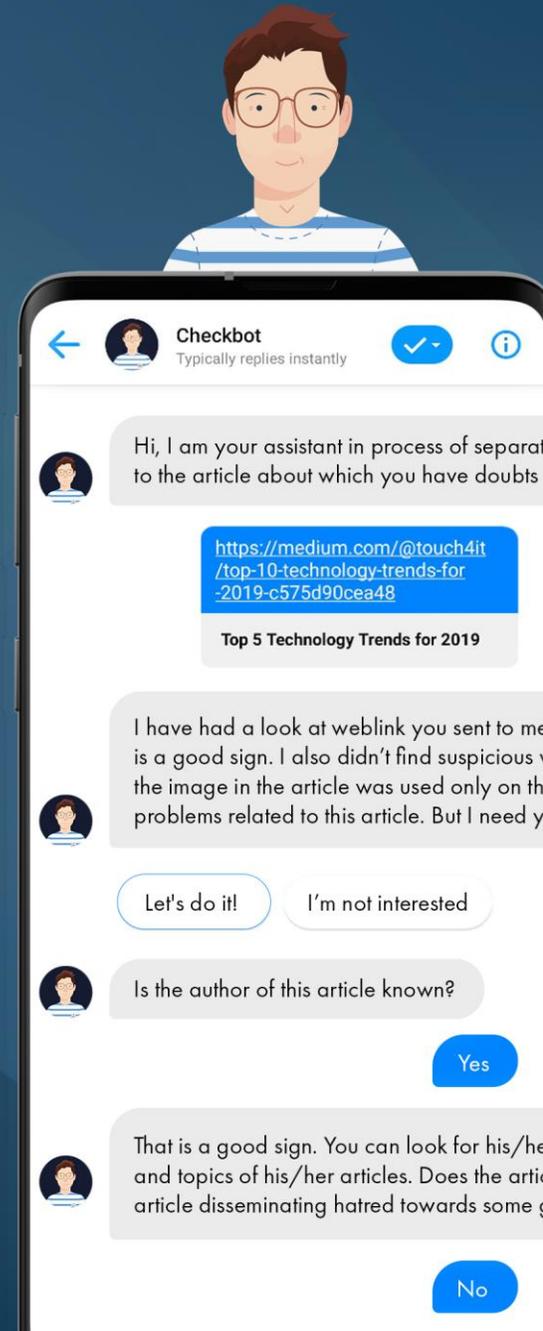

Chatbot | FB Messenger | AI

A hoax-fighting chatbox

In cooperation with the Seesame agency we have developed a messenger bot for Lithuanian and Slovak market which helps to prevent fake news and hoaxes from spreading.

SCHEIDT&BACHMANN 

KASYs[®]

Software | SAP | Integration | Logistics

Integration of Hänel Lean-Lift system with SAP

We have integrated the Hänel Lean-Lift robotized warehouse system with the SAP ERP system. By creating software that manages the control of the lift easily, we optimized logistics and reduced handling time.

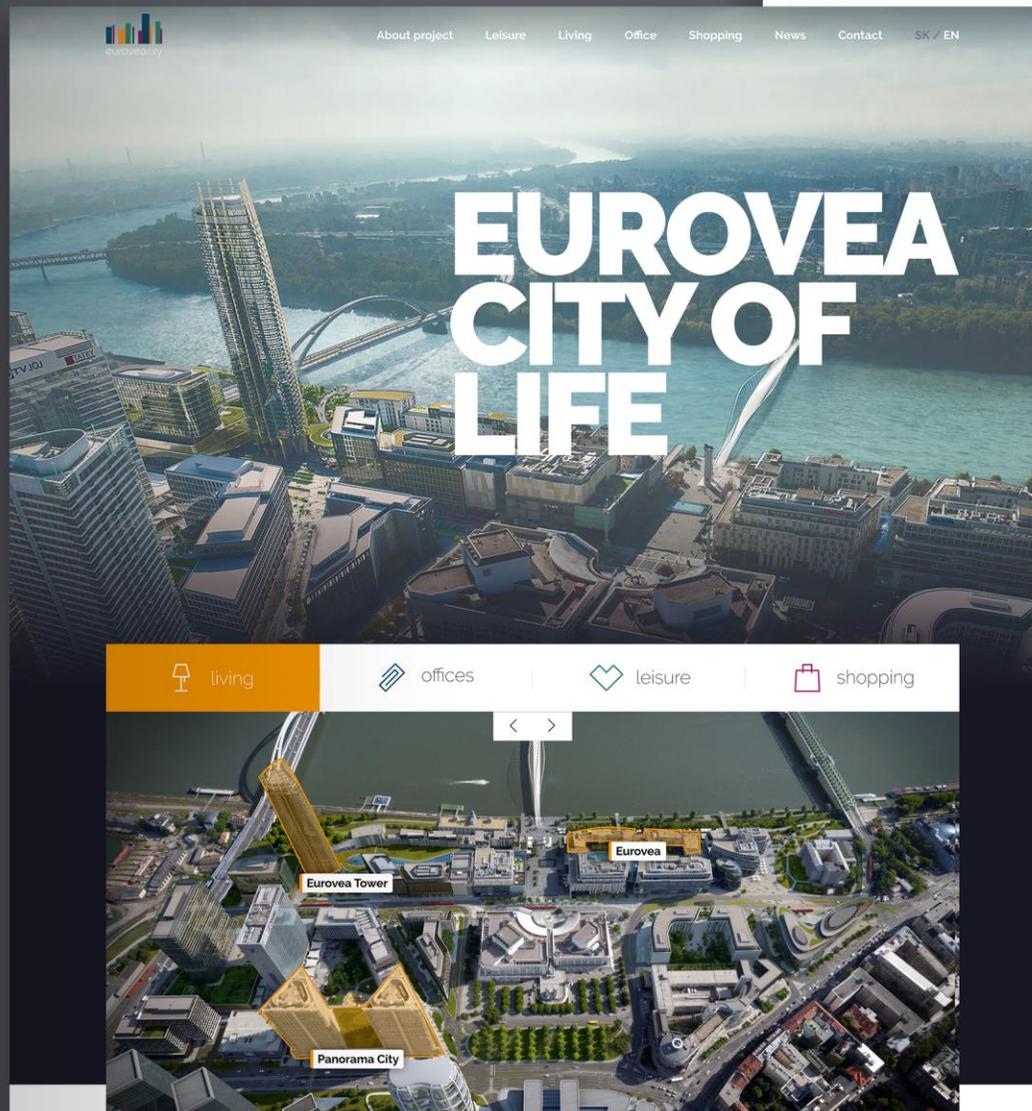

UX | UI | Web portal | Real Estate

Tailor-made website for Bratislava's newest leisure and shopping complex

We have designed & developed a presentation website for a state-of-the-art city district development in Bratislava.

This city quarter's exceptional location delivers zestful synergy - insightful infrastructure, amenities, and relaxation zones bring a refreshing new quality of life to this popular European city.

Pribina House

01 / 02

byty@euroveacity.sk
+421 2 5941 8855

Office space with added value - unique architecture, comfortable interiors, perfect services, and breathtaking views of this vibrant exciting place. The Eurovea City locality is the most dynamically-growing quarter in Bratislava, and is fast becoming a renowned European centre for business.

Eurovea City

EUROVEA TOWER
euroveacity

UX | UI | Development | Real Estate

Interactive website for Slovakia's first skyscraper

We worked in conjunction with a local sales and marketing team to develop a custom website for a ground-up residential development on the Danube River.

168

Bratislava's iconic skyline will be complemented by a welcome new addition – the 168-metre Eurovea Tower, Slovakia's very first skyscraper.

With an imaginative and elegant design based on gentle curves, the refined beauty of Eurovea Tower will become a dignified urban counterpoint to the landmark grandeur of Bratislava Castle. The tower's beautiful silhouette will be accentuated with an interplay of light and shade by day, and subtle lighting by night – its inspiring views will include the emerging Eurovea City district and the Danube riverside.

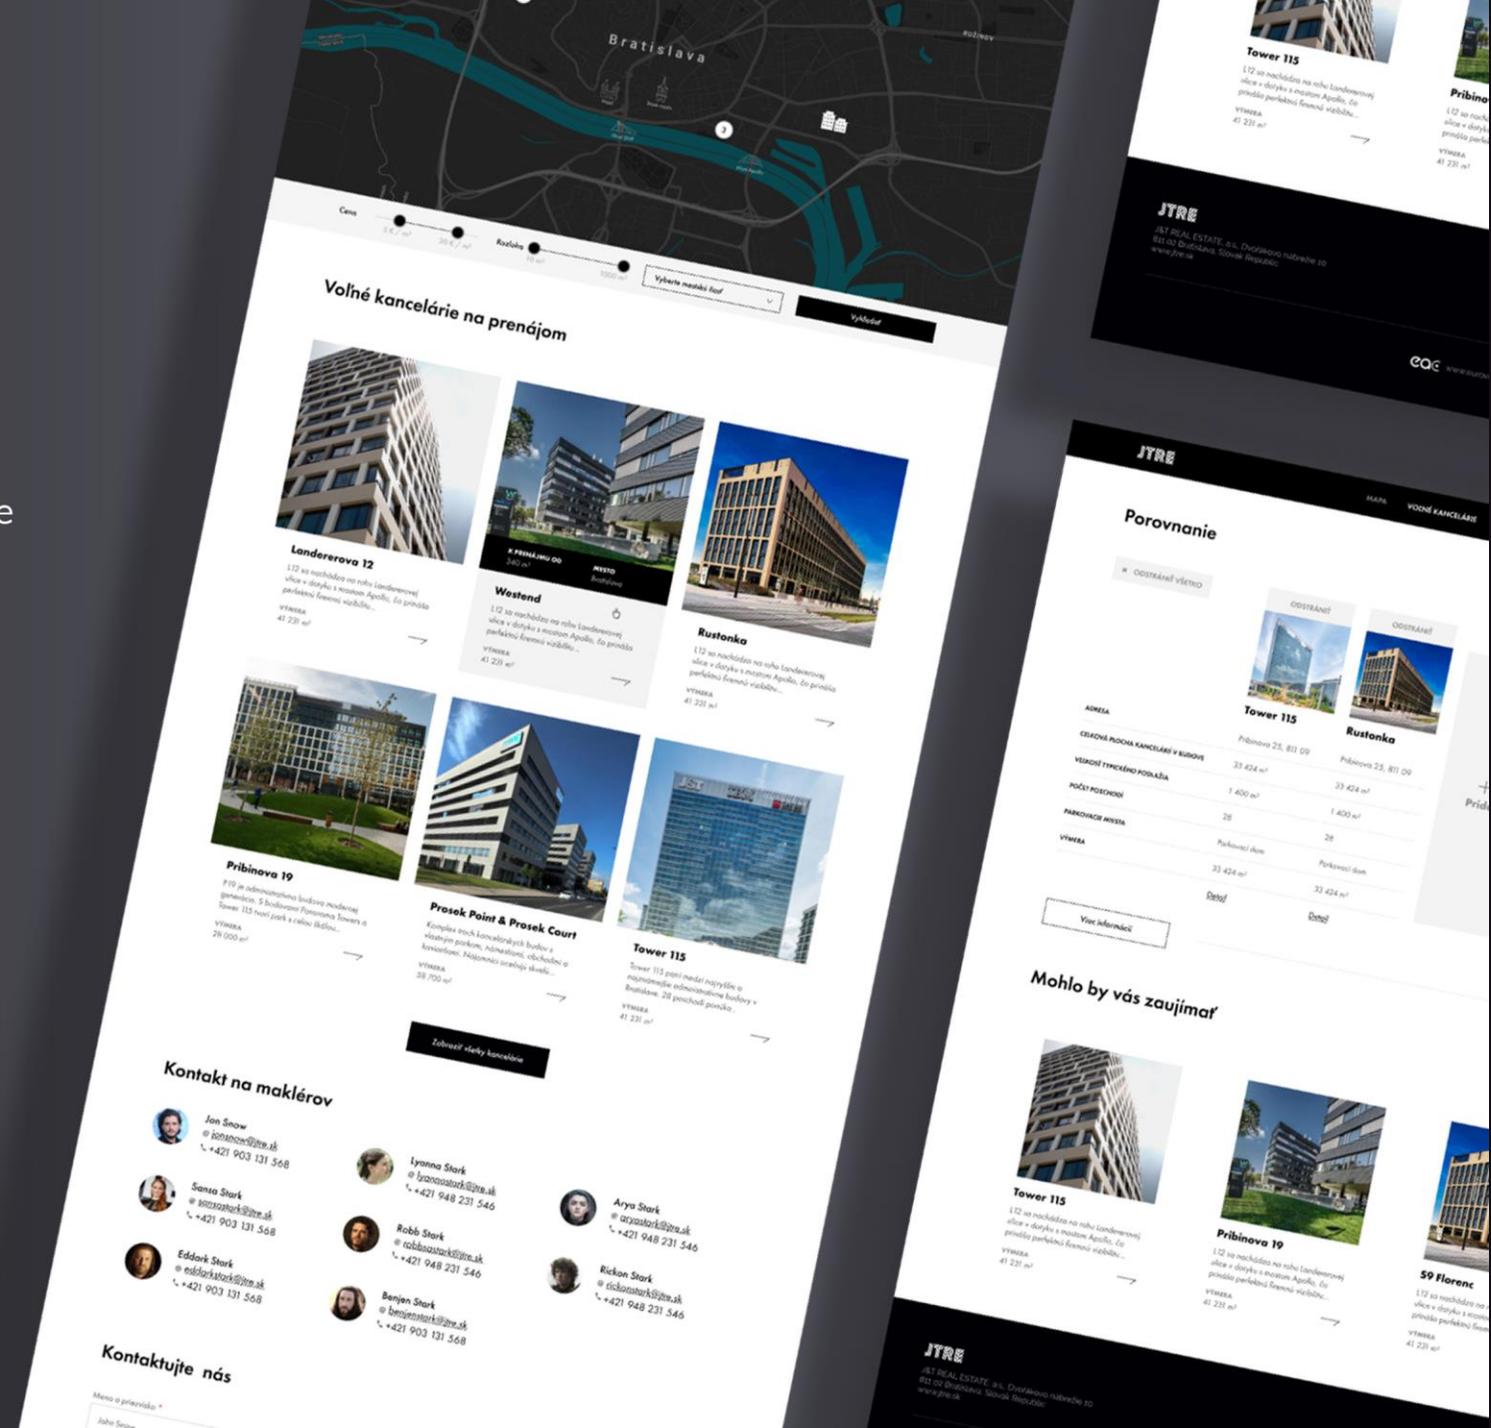

SK | EN

UX | UI | Property Management | Real Estate

Real estate property portal for selling & renting

Web portal for presenting a large amount of information on offered premises. Our goal was to simplify a customer journey through the whole process.

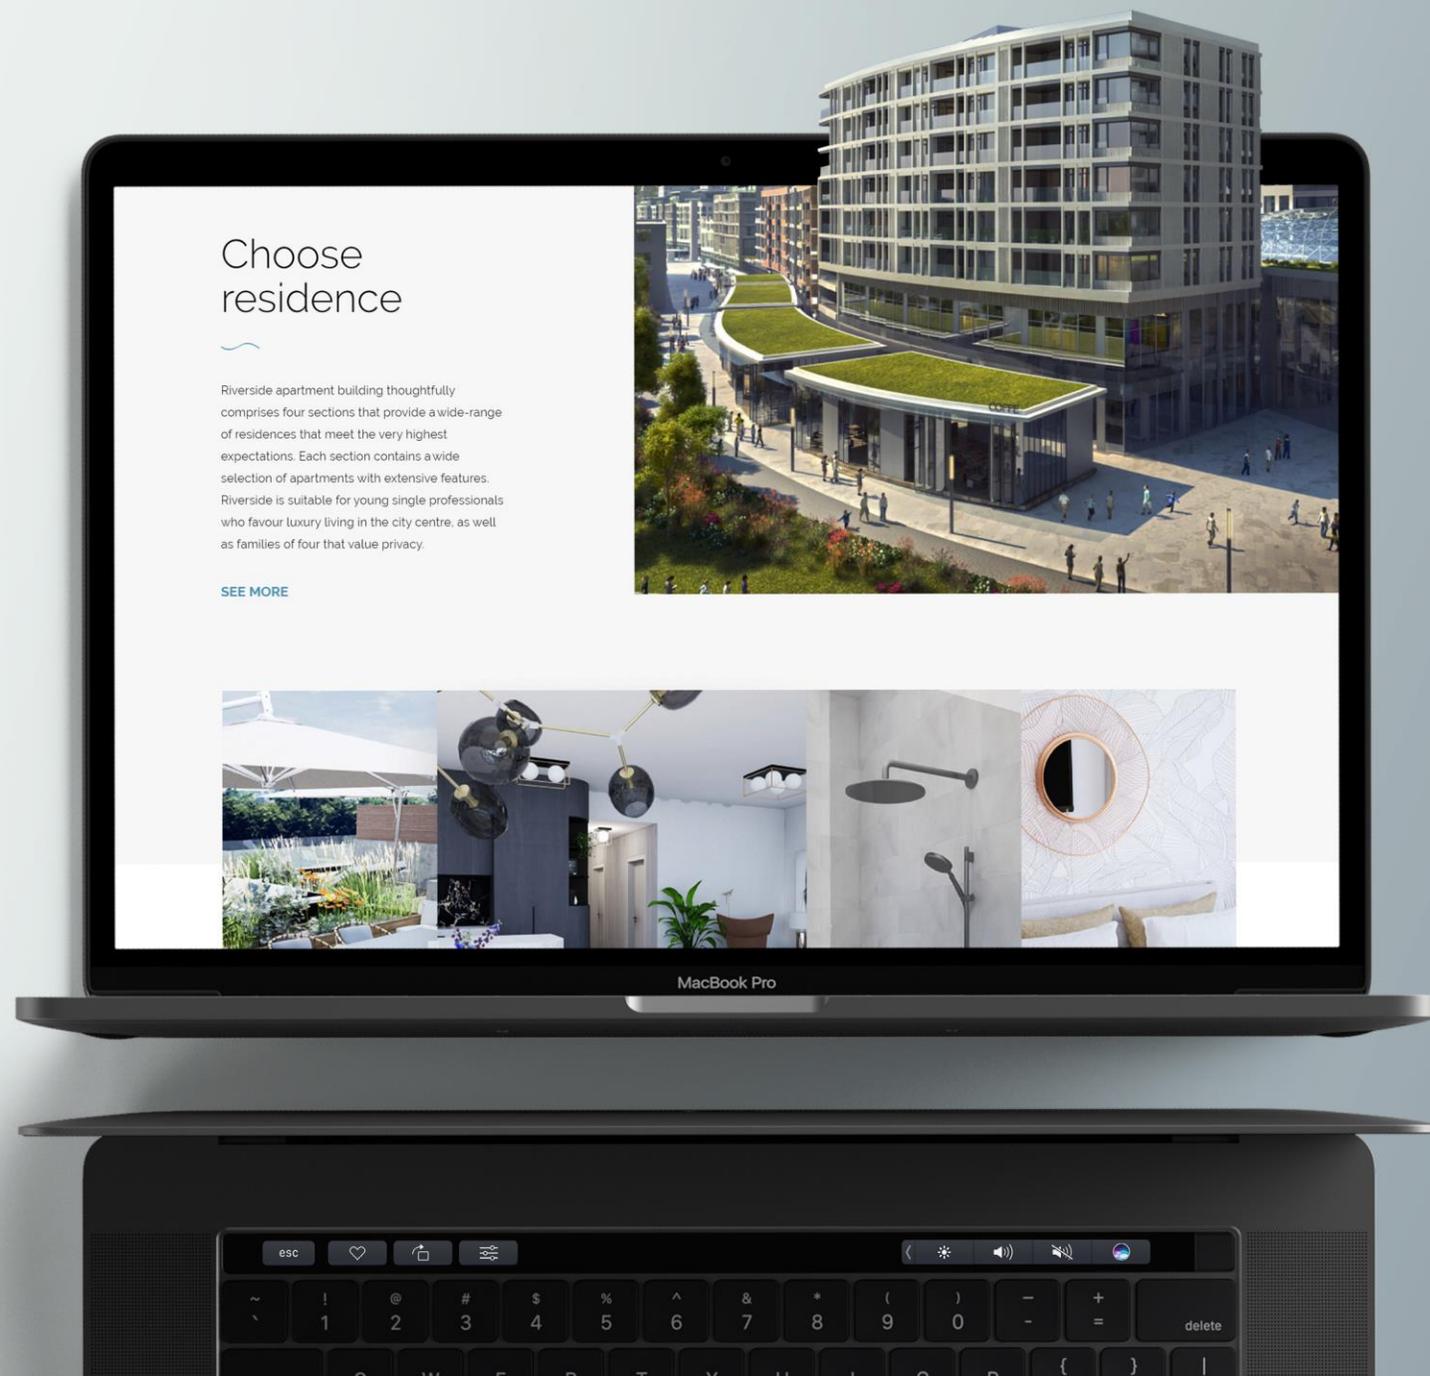

RIVERSIDE

UX | UI | Development | Real Estate

Interactive Website for a New Residential Development

We worked in conjunction with a local sales and marketing team to develop a custom website for a ground-up residential development on the Danube River.

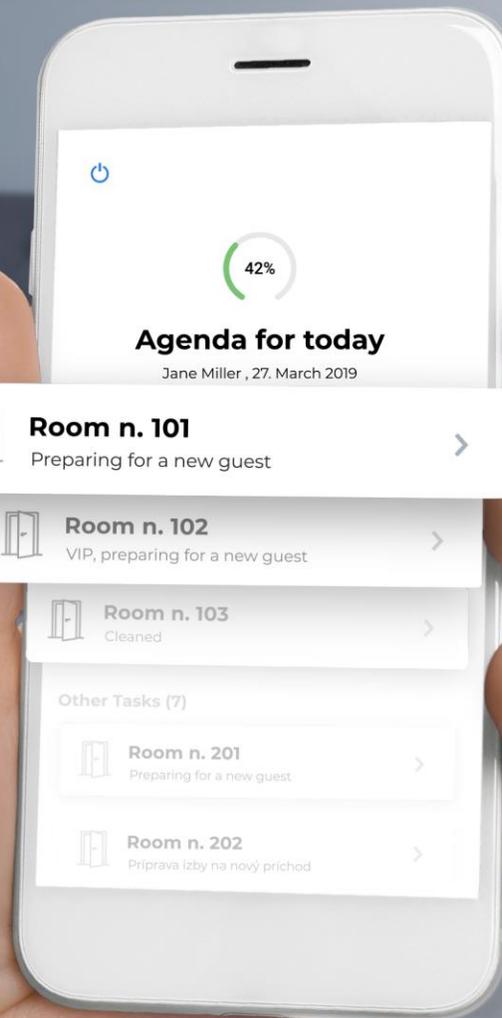

UX | UI | Mobile App | Hotel management

App for hotel managers and chambermaids

This handy assistant based on the best practices of UX / UI makes the management of housekeeping a lot easier and more effective in many hotels.

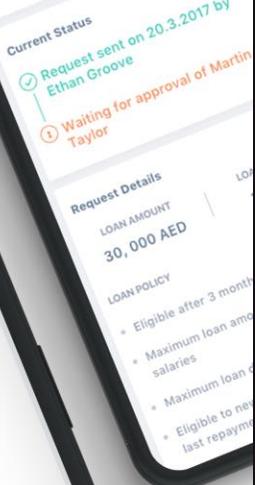

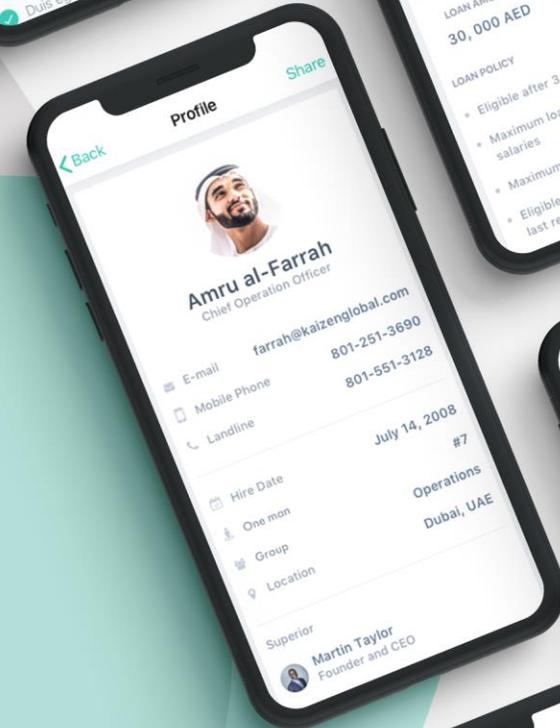

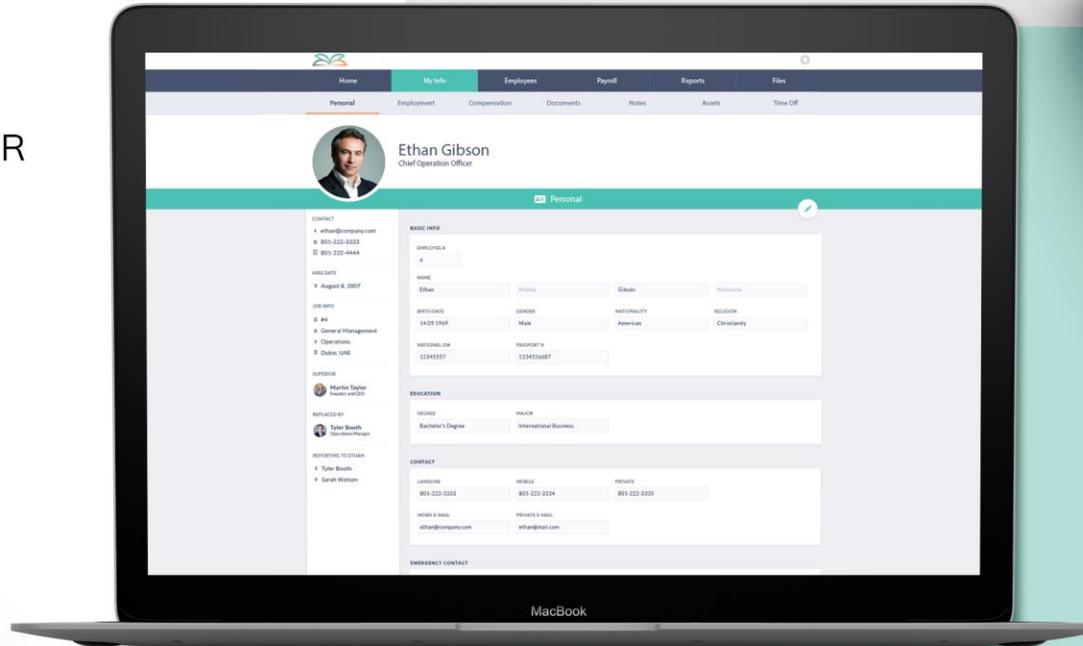

UX | UI | Web | Android | iOS | HR

Human Resource system for Saudi Arabia

For PalmHR we created a complex SaaS software, which is now used by several companies.

GreenChem

AR | UX | UI | Mobile App | Transportation

AR app for producer and distributor of Adblue

This mobile app with augmented reality helps sales representatives to showcase 3D models of their AdBlue filling systems at a particular place. The app also creates a price offer.

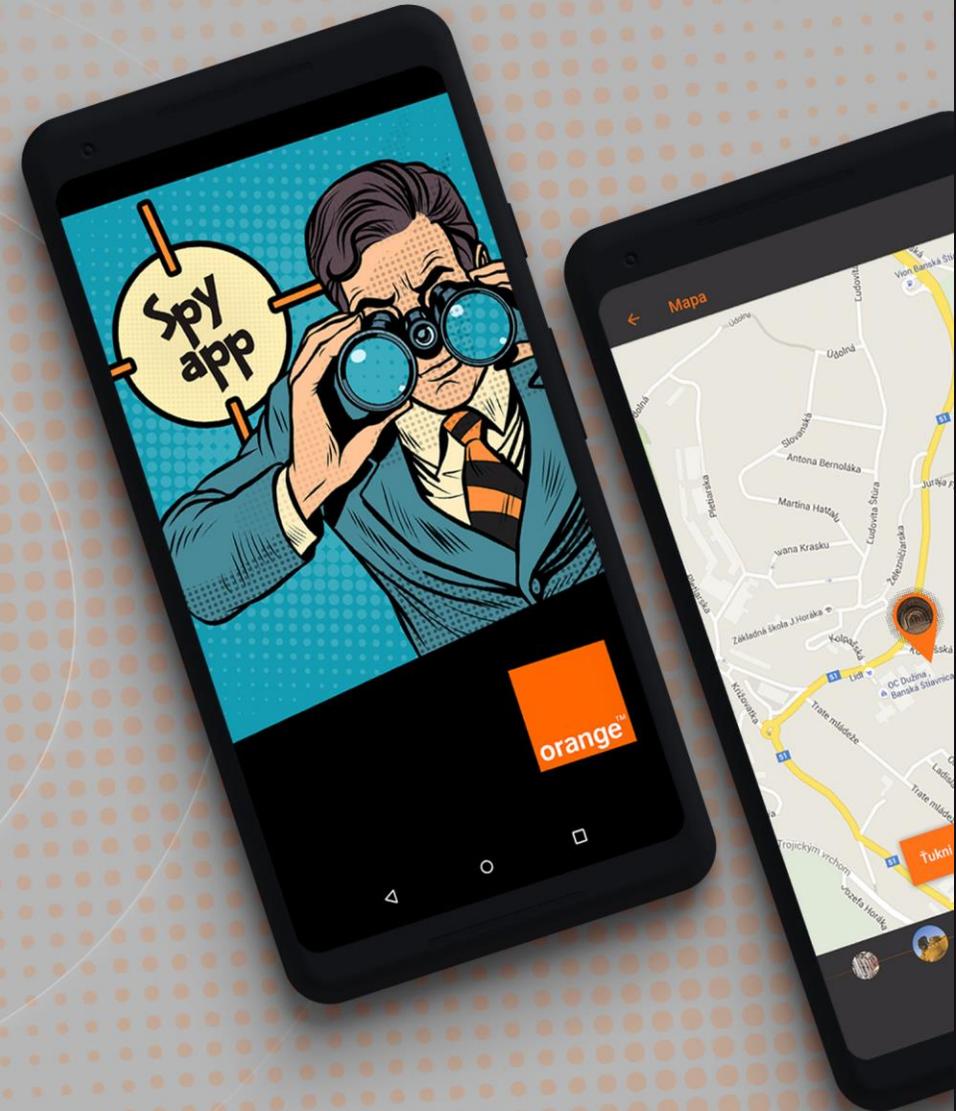

UX | UI | Android | iBeacon | Game

SpyCamp mobile game with iBeacon technology

An interactive mobile game based on iBeacon technology in the style of James Bond. It tracks the player's location to let them progress in the game.

iBeacon

Web | Business2Human

Interpreter assistant for Deaf

In cooperation with Slovak Telekom and Pontis foundation we developed an online interpreter to help deaf people in their daily life. The system enables their translating needs.

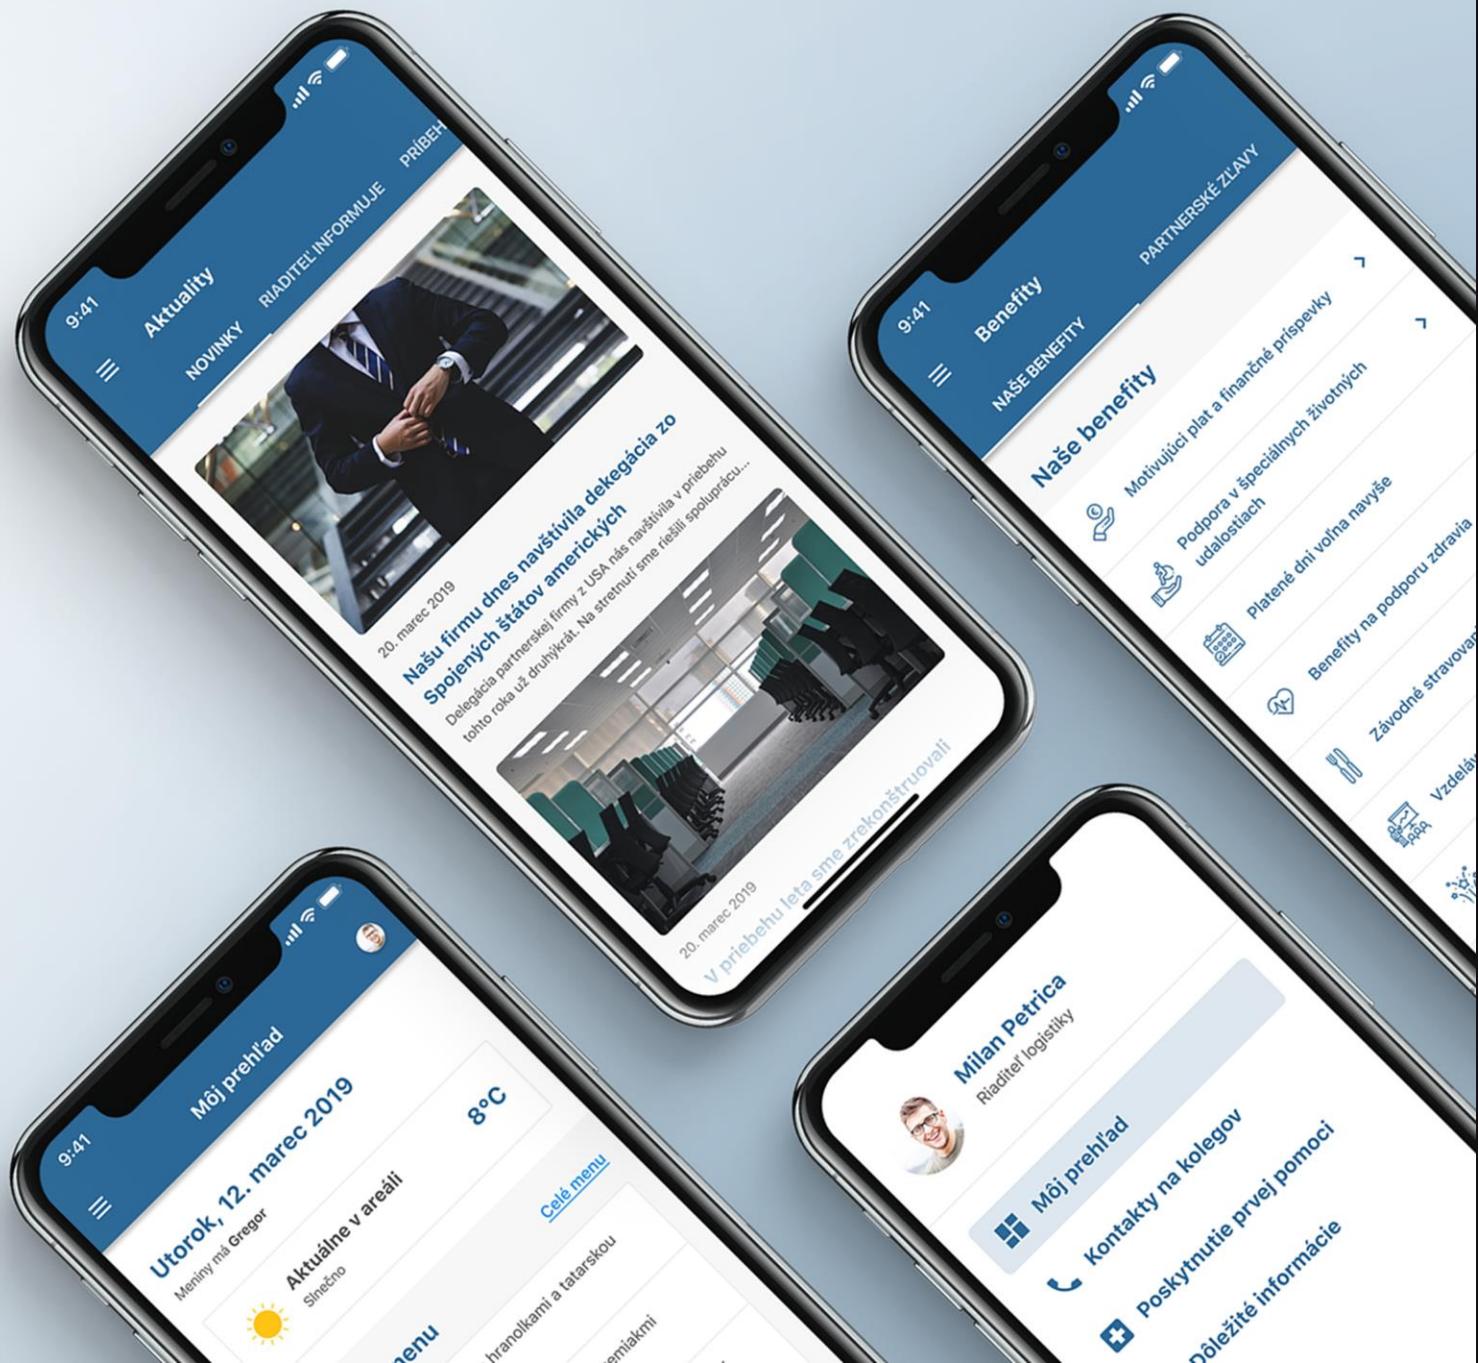

UX | UI | iOS | Android | HR

Mobile app for internal communication

This app helps to instantly connect with your employees. It informs and engages associates more effectively and boosts up employee morale within your company. The app can be easily adjusted to your needs or your brand identity.

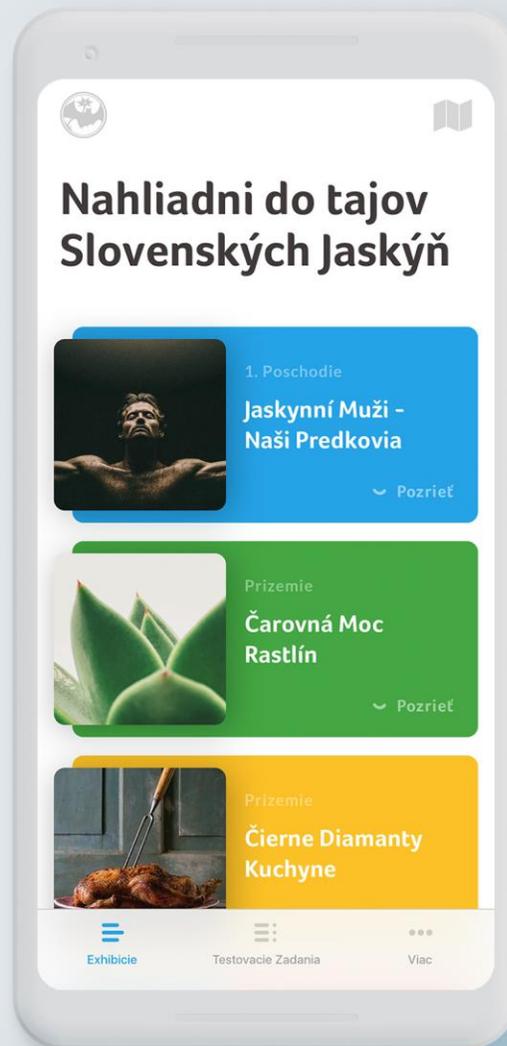

SLOVENSKÉ MÚZEUM
OCHRANY PRÍRODY
A JASKYNIARSTVA

App | iOS | Android | Education

Native app for SMOPAJ musem

This mobile app simplifies environmental education and promotes collection items and expositions exhibited in the museum.

Zetor

AR | 3D animation | Engineering

AR Tractor for HTC holding

Augmented reality application,
which enhances the HTC
holding presentation brochure
with 3D animations of a Zetor
tractor, ball bearing, and more.

AR | 3D | Prototyping | Gastronomy

Prototype for ordering a menu at McDonald's

Thanks to Augmented Reality customers can customize their menu and see what it will look like before ordering.

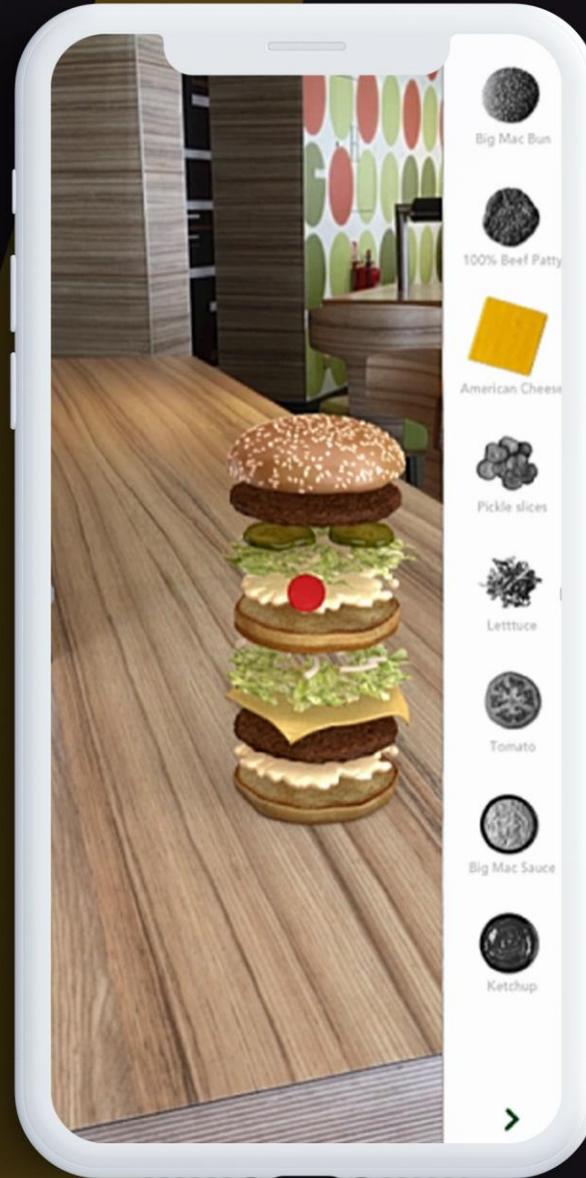

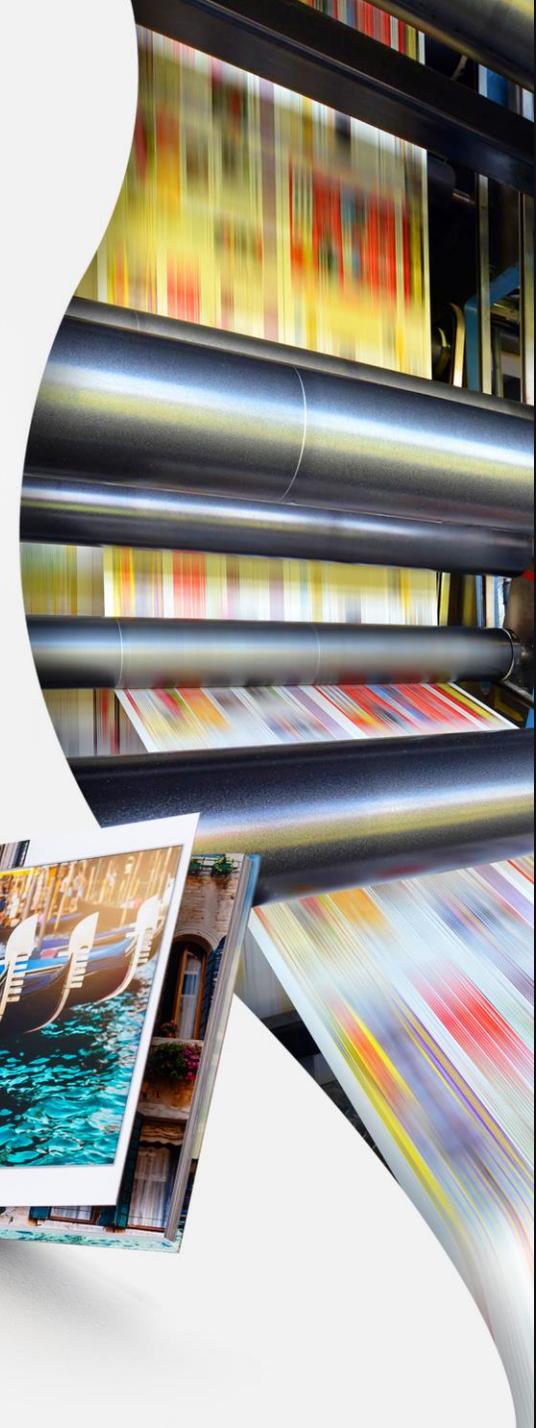

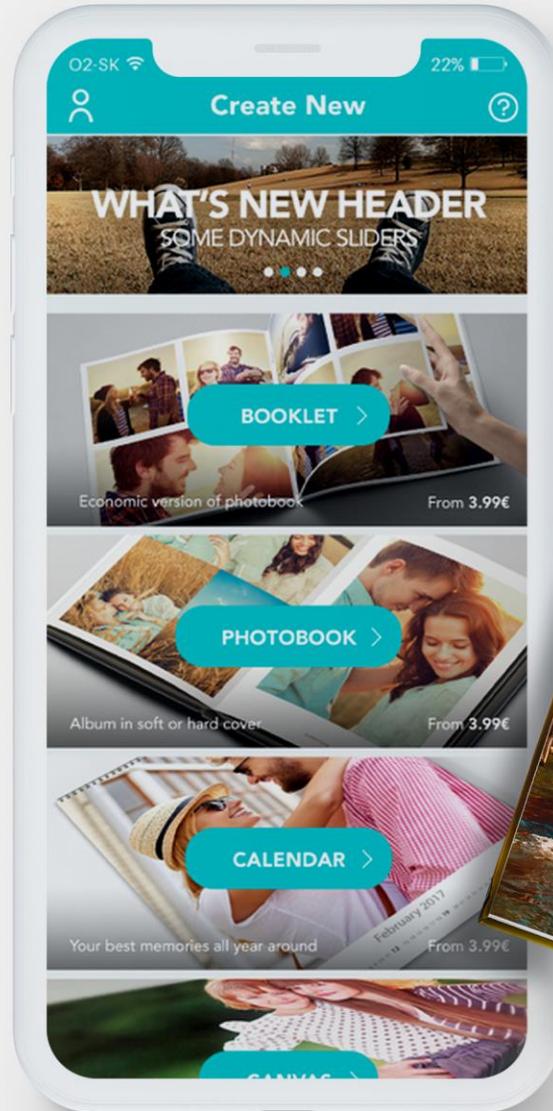

Photo
product
service

iOS | Android | Photo print product

System of making photo products for printing companies

The full automatization of the app helps
with product design, sends it to the
printer and even orders deliveries.

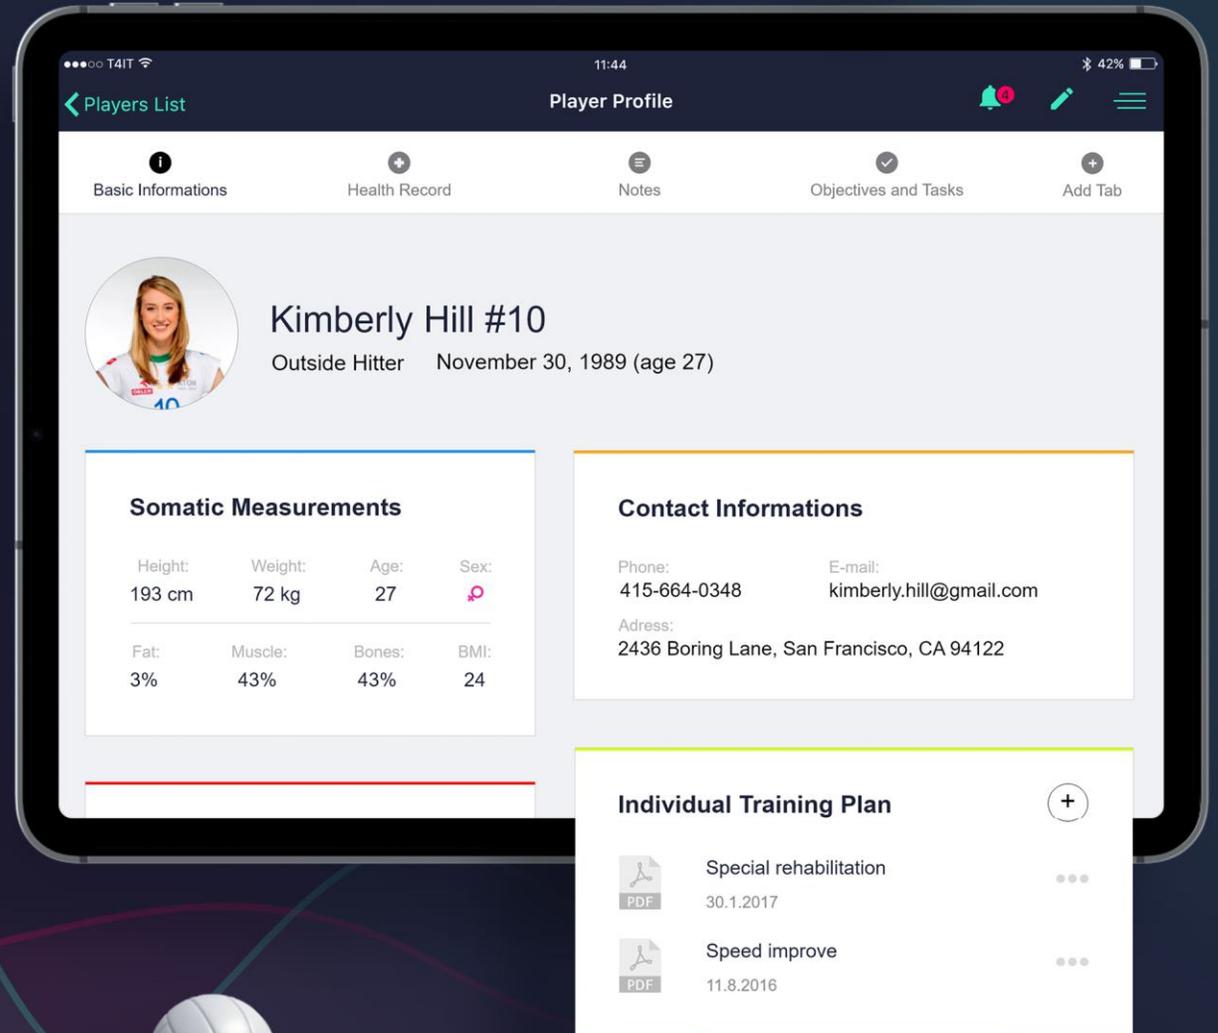

UX | UI | iPad App | Web | Sports

App SPPM for sports team

SPPM is a powerful player management, planning and performance evaluation tool with unique algorithm developed for top league coaches.

AR | Web app | Educational platform

Our EdTech spin-off

Our EdTech division focused on the production of educational apps for teaching and connecting with people. We transform activities into educational experience by creating digital tools for educators and learners of the future.
